Powered by 11 AI/ML Engines

AI Technology Stack

Enterprise-grade AI infrastructure built for education

Machine Learning	LSTM • XGBoost • Random Forest
Deep Learning	Neural Networks • Pattern Recognition
Generative AI	GPT-4 • Claude • Content Generation
Computer Vision	AWS Rekognition • Face Recognition

AWS Mumbai (ap-south-1) • Enterprise Encryption • Real-time Processing

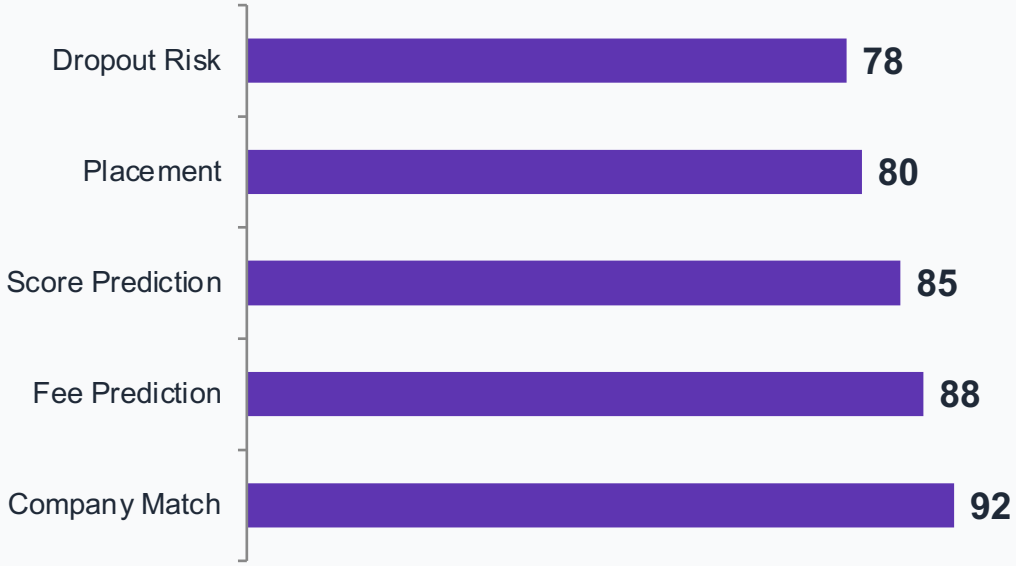
11 AI Engines

Purpose-built AI for education outcomes

Score Predictor	85%+
Placement AI	80%+
Dropout Detector	78%+
Company Matcher	92%
Fee Predictor	88%
Paper Generator	GPT-4
Resume Builder	ATS+
Study Planner	Adaptive
Skill Analyzer	Real-time
Face Recognition	99.9%
AI Chatbot	24/7

AI Prediction Accuracy

Machine learning models trained on 100K+ student records



How AI Works

1. Collect Data
2. Extract Signals
3. Train Models
4. Predict Scores
5. Trigger Actions

AI for Every Role

Personalized AI intelligence for each stakeholder

Principal

Predictive dashboards, trend forecasting

HOD

At-risk alerts, department benchmarks

Admin

Auto fee reminders, smart scheduling

Teacher

AI paper generation, score predictions

Student

Career AI, resume builder, study planner

Parent

Progress alerts, real-time notifications

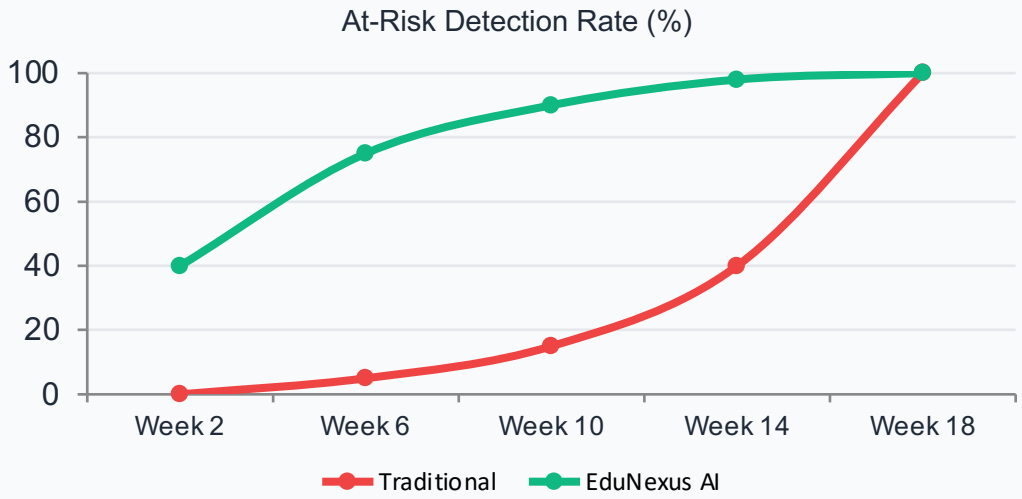
+20% Fee Collection

Annual Impact: 18,000+ staff hours saved • ₹48L+ additional revenue

AI Early Warning System

Detect at-risk students 8 weeks earlier



8-10 Weeks

Earlier Detection

AI Risk Signals

- Attendance drops
- Grade decline
- Assignment delays

Result: 40% reduction in dropouts through early intervention

AI Automation in Action

Automated workflows that run 24/7

IF: Student misses 3 classes

→ Auto-alerts parent, teacher, counselor

IF: Fee due in 5 days

→ Sends reminders via SMS/WhatsApp

IF: Exam in 2 weeks

→ Generates practice papers

IF: Campus drive announced

→ Shortlists & notifies students

IF: Semester ends

→ Auto-generates transcripts

IF: New student joins

→ Creates personalized learning path

500+ automated workflows • 24/7 operation • Zero manual intervention

Why EduNexus

Education-first AI, not generic tools

Education-Trained
Models built on education data

India-First
Built for AICTE, university systems

Privacy-First
Data stays in India (Mumbai)

Self-Improving
Models get smarter monthly

Explainable AI
Every prediction has reasons

Human-in-Loop
AI recommends, humans decide

Built by educators + AI engineers who understand both domains
