THE CHALLENGE

Engineering Colleges Are Drowning in Chaos

1 40+ Hours/Month

Wasted on Manual Work

Staff spend countless hours on attendance registers, fee reconciliation, manual reports, and parent phone calls.

2 Fragmented Systems

Data Silos Everywhere

Student data in Excel, fees in Tally, attendance on paper. No single source of truth. Decisions made on incomplete information.

3 At-Risk Students

Discovered Too Late

By the time you identify struggling students, it's already end of semester. Dropouts could have been prevented.

4 Fee Collection

A Never-Ending Chase

Manual reminders, phone calls, defaulter lists. Parents struggle to pay. Collection rates stuck at 80-85%.

5 Placement Anxiety

No Career Guidance System

Students unprepared for interviews. No skill gap analysis. Placement rates suffer. Rankings drop.

6 Parent Disconnect

Complaints Keep Coming

Parents feel out of loop. No visibility into child's progress. Communication is one-way and delayed.

"We knew there had to be a better way..."

THE SOLUTION

One Intelligent Platform For Complete Control

EduNexus brings together every stakeholder, every process, and every data point into one AI-powered platform designed specifically for Indian engineering colleges.

9 Role-Based Portals - Everyone Connected

Platform Owner
Multi-college oversight

Principal
Executive dashboard

HOD
Department control

Admin Staff
Daily operations

Teacher
Academic delivery

Lab Assistant
Practical sessions

Student
Learning & career

Parent
Track & pay

Alumni
Stay connected

What Changes When You Switch to EduNexus

- ✓ **Single Source of Truth**
  All data in one place. No more Excel chaos.
- ✓ **AI-Powered Predictions**
  Know which students need help before it's too late.
- ✓ **Automated Workflows**
  Let the system handle repetitive tasks.
- ✓ **Real-Time Visibility**
  Dashboards that show you what matters, now.

POWERFUL FEATURES

Built for How Colleges Actually Work

Attendance Management

2 min
vs 15 min manual

Digital attendance in 2 minutes vs 15. Subject-wise tracking. Automatic shortage alerts. Parent notifications. Biometric-ready.

Fee Collection & Payments

+20%
collection rate

Online payments via UPI, cards, net banking. Automated reminders via SMS, WhatsApp, email. Real-time reconciliation. Zero manual follow-ups.

Exam & Results Management

1-click
report generation

End-to-end exam management. Marks entry, grade calculation, CGPA/SGPA. One-click marksheet generation. Result analytics.

AI Score Prediction

Week 2
early warning

85% accurate predictions using LSTM + XGBoost. Identifies at-risk students in week 2. Personalized intervention recommendations.

Placement & Career Hub

+25%
placement rate

AI-powered placement predictions. Skill gap analysis. Resume builder. Company-student matching. Mock interview prep.

Parent Portal

60%
more engagement

Real-time academic updates. Online fee payment. Live bus tracking. Direct teacher communication. Complete peace of mind.

Plus: Transport Management • Hostel & Mess • Library • Sports & Clubs

Communications • Documents • AICTE Compliance Reports • And More...

AI THAT ACTUALLY WORKS

Predictive Intelligence Built Into Every Module

Score Prediction Engine

LSTM + XGBoost ensemble model predicts student performance with 85% accuracy. Identifies struggling students weeks before exams.

85%
Accuracy

Placement Prediction

AI analyzes CGPA, skills, certifications, and internships to predict placement probability and match students with ideal companies.

80%
Match Rate

Weak Topic Identification

Machine learning identifies specific topics where students struggle. Generates personalized study plans and resource recommendations.

Smart
Analysis

24/7 AI Chatbot

Instant answers to student queries. Context-aware responses. Handles 80% of routine questions. Seamless escalation to humans.

24/7
Support

"AI identifies problems before they become crises."

6 ML Models • GPT-4/Claude Integration • Real-time Analytics

Ready to Transform Your College?

Join forward-thinking institutions that have already made the switch to AI-powered management.
